

HOSPICE VOLUNTEERS NEEDED!

Volunteer for hospice and change the world...

...one life at a time.

The life you change may be your own!

Assured Hospice Care, Inc. is looking for volunteers who are willing and able to give of themselves to help bring comfort and dignity to our patients and families.

We are in need of volunteers to spend quality time with hospice patients, or alternatively to shadow/assist staff (administrative staff, nurses, social workers, etc...) in our Southfield office. Volunteers who work with patients will make visits, either to the patient's home or assisted living facility, in order to converse and provide a social visit to a homebound individual. Hospice patients are thrilled to receive company from friendly visitors and express gratitude for having conversations, playing cards, watching TV, doing a crossword puzzle with a friend, etc. These

patients have been diagnosed with a terminal illness and are no longer seeking aggressive medical treatment, only "comfort care" to manage their symptoms from home.

You can make a difference for someone in need of comfort and companionship as they travel the final journey from this life to the next.
